

On Fire for Secondary Fuels

Semi-mobile Compact System – Economic, Flexible and Safe

Semitrailer with walking floor **1**

3 Drag chain conveyor

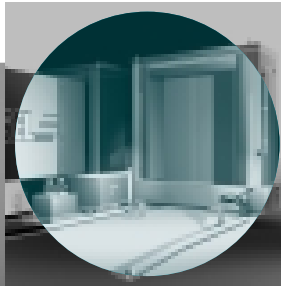

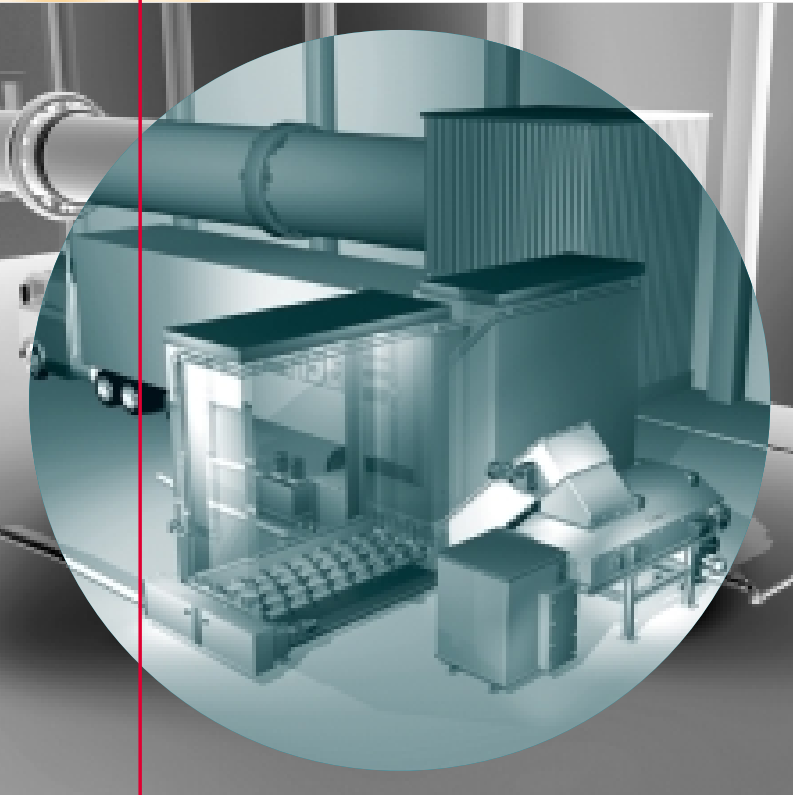

4 Weighfeeder

2 Docking station with screw bottom bins

5 Blow-through rotary feeder

6 Pneumatic conveyor line

We Transport, Feed and Convey Secondary Fuels Down to the Burner

Operational Advantages:

- ☑ No operators required
- ☑ Easy maintenance and good accessibility of all components
- ☑ Even and pulsation-free fuel conveying through blow-through rotary feeder
- ☑ Low power consumption, e.g. 12 kWh at 2.5 t/h and 70 m run length

Operating Safety:

- ☑ Reliable conveyor technology and highly accurate feeding equipment
- ☑ 0 to 50 mm grain size, max. 1 % up to 100 mm
- ☑ System protected from kiln faults
- ☑ Mobile storage of fuels (simple safety technology)
- ☑ Good accessibility of all components

Modular Compact System:

Designed for storage, feeding and conveying of a wide range of solid secondary fuels

Package Solution:

From a single source from planning to commissioning and after-sales service

Conceptual Advantages:

- ☑ Modular process concept
- ☑ Designed for a wide range of materials
- ☑ High flexibility: easy conversion for varying fuels
- ☑ No expensive silo constructions (simple safety technology)
- ☑ Little space requirements (approx. 9 x 6 m)
- ☑ Mounting on simple bottom plate
- ☑ Quick mounting and dismounting
